**AFFIDAVIT IN SUPPORT
OF A CRIMINAL COMPLAINT**

Albert W. Zenner, being duly sworn deposes and says:

1. I am a Special Agent of the Federal Bureau of Investigation ("FBI") and have been so employed since September 2, 1997, duly appointed according to law and acting as such.

2. I am presently assigned to the Rochester, New York, Resident Agency of the FBI and I am currently assigned to investigate, among other things, crimes against children including those which prohibit a person from utilizing a facility of interstate or foreign commerce to persuade, induce or entice a minor to engage in any sexual activity for which any person can be charged with a crime, or to attempt to do so, in violation of Title 18, United States Code, Section 2422(b).

3. The statements contained in this affidavit are based on information provided by employees of the Gates Police Department (GPD) and on my experience and background as a Special Agent of the FBI. Since this affidavit is being submitted for the limited purpose of securing a complaint, I have not included each and every fact known to me concerning this investigation. I have set forth only the facts that I believe are necessary to establish probable cause to believe that there have been violations of Title 18, United States Code, Section 2422(b).

4. By way of background, the GPD has a Criminal Investigations Unit supervised by Lieutenant Gordon T. Whitehair which, among other things, investigates crimes against children.

5. On May 31, 2007, the GPD received a complaint from a parent (hereinafter "Complainant"), that on May 30, 2007 she had checked a file folder on her home computer containing her daughter's Instant Message (IM) conversations. Complainant indicated that she had found pages of messages between her daughter (hereinafter "Victim"), date of birth xx/xx/1990, and JASON RICHARD STONE (hereinafter "STONE"), date of birth xx/xx/1981. Complainant stated that the IM's led her to believe that Victim and STONE were involved in a sexual relationship. Complainant stated that STONE is an employee of the Gates Fire Department (GFD) and that the Victim was in the GFD Explorer Program. Complainant then provided the GPD investigator with copies of the IM conversations between STONE and Victim. A copy of the IM conversations dated April 9, 2007, and April 10, 2007 is attached hereto as Exhibit A.

6. Victim was then interviewed by the GPD investigator on May 31, 2007. At that time, Victim indicated that in or around February 2007, STONE began to pay a lot of attention to her by asking questions about her personal life to include what kind of

underwear she wore. Victim also stated that STONE had told her that if she were nine years older that he would date her. Victim stated that she liked it when STONE flirted with her and gave her attention. Victim stated that she and STONE talked a lot online and that STONE used his GFD e-mail account under the name GFDSoney. Victim stated that after approximately a month of online chatting, STONE began to get sexually aggressive in their conversations. Victim stated that she was not sexually experienced and told STONE that she was new with sexual conversations. Victim stated that during her Spring break from school, which was from April 9 to April 13, 2007, she met STONE at the GFD on Chili Avenue. Victim stated that STONE then took her to his home at 53 Lori Lane and kissed her when they got inside the door and admitted that she kissed him back. Victim stated that a day or two later she went back to the GFD, that she went to STONE's office and they kissed for several minutes while in the office. Victim stated that on April 13, 2007 she again went to the GFD. Victim stated that STONE took her to "run errands" but again they went to his house. Victim and STONE went to the computer room and began kissing. Victim stated that they ended up kneeling on the floor. Victim stated that STONE took down her pants and underwear and put his fingers in her vagina. Victim also stated that STONE lifted her shirt and bra and looked at her breasts. Victim stated that STONE unzipped his pants and

pulled out his penis and began to masturbate. Victim stated that STONE stated "just do it like this" and she then masturbated him until he ejaculated on her stomach. Victim stated that STONE retrieved a "Tony Stewart" blanket off a chair in the computer room and gave it to her to wipe off his semen from her stomach. Victim and STONE drove back to the GFD. Victim then stated that in May 2007, she and STONE went to the 7-11 on Elmgrove Road and that STONE took victim's hand and placed it on his penis over his pants and said, "you know you want this". Victim stated that she and STONE went to his office at GFD Company 1, on Chili Avenue. Victim stated that once in the office they began to make out and then she sat down and STONE stood in front of her. STONE pulled down Victim's pants and underwear and he put his fingers inside her vagina and fondled her breasts. Victim stated STONE then unzipped his pants and took his penis out and she masturbated him until he ejaculated on the front of her sweatshirt. Victim also stated that STONE had sent her a photograph of his penis and she has sent him a head shot where she was wearing a bra. Victim stated that the photo of STONE's penis was still on her home computer.

7. On May 31, 2007, the GPD investigator, along with Lieutenant Whitehair, interviewed STONE in his office at the GFD Company 1. STONE initially denied any type of relationship with

the Victim other than working at the GFD Fire house. STONE denied having any inappropriate conversations with Victim via e-mail, IM or phone calls. STONE denied that Victim was ever in his home. However, later during the interview process, STONE admitted that the Victim may have been to his home once but stayed in the doorway while he "grabbed his lunch". STONE then admitted that he and the Victim mutually flirted with each other when in his office. STONE then admitted that he and the Victim kissed and touched each other on their private areas and that Victim had masturbated him twice. STONE admitted that he ejaculated both times on the Victim and that she cleaned herself with her shirt. STONE admitted that the masturbation took place at his home and in his office. STONE admitted that he had sexually graphic conversations with the Victim online. STONE apologized for initially lying to the investigators saying that he did not want to lose his job at the GFD. STONE provided a signed statement and provided consent to the investigators to search his personal computer at home. On that same day, GPD investigators followed STONE to the GPD where STONE left his vehicle. The GPD investigators and STONE then drove to the STONE's residence at which time STONE signed a consent to search form allowing the GPD investigators to search his personal computer. A GPD Sergeant responded to STONE's residence and photographed and seized the personal computer. STONE was then

transported back to the GPD where he was processed.

8. The GPD investigators also obtained a signed consent to search form for STONE's work computer from the GFD Chief James Harrington. A GPD Sergeant responded to secure and photograph STONE's GFD work computer.

9. On June 1, 2007, Jason Crawford, GPD Information Technology/Computer Forensics Officer, began a forensic analysis on the GFD District computer Tag #007014, Model#PC Clone. Crawford completed a cursory search of the local folder for user "jstone". This folder was the user directory of STONE for his GFD network account. The search revealed temporary internet files directly related to the web browsing of pornographic materials. Upon reviewing a sample of these files Crawford found pornography and pictures of young persons, some of which were semi-nude or nude. An external USB hard drive was used to copy the data found on this computer.

10. On June 4, 2007, Crawford began a forensic analysis on a computer used by the Victim and owned by the Complainant. Crawford was advised that Complainant had provided consent to search the computer as well as provided GPD with usernames and passwords to all of the Victim's internet and e-mail accounts.

Crawford logged into the Victim's AOL e-mail account to retrieve e-mail sent by STONE to the Victim. The e-mail inbox contained two messages dated April 9, 2007 from Stoney80@rochester.rr.com. This is the personal e-mail account for STONE at the GFD. Both e-mails had picture attachments. One was a head shot photo of STONE and the second message had an attached photo of STONE's erect penis. Crawford then reviewed the Victim sent items folder and found three e-mail messages sent to Stoney80@rochester.rr.com. These three messages included photos of the Victim. Two of the photos were of herself in a lime green bikini top or bra. The third photo was the Victim fully clothed. Screenshots and copies of the e-mails were saved electronically and printed for evidence. The email was moved to the saved folder in the AOL e-mail account so that it would not be deleted by the service provider. Additionally, the AOL e-mail password for the Victim's account was changed so that the e-mail could not be tampered with remotely.

11. Crawford then conducted a search of the Victim computer and found a folder containing AOL messenger logs. Among these log files were the log of chat conversations with the user GFDStoney (STONE). Further review of these logs showed multiple conversations in which STONE requests sexually explicit pictures and activity from the Victim. Contained in this log is a chat

from April 9, 2007, in which the photos found in the AOL e-mail accounts from STONE and the Victim are discussed. Crawford also copied the file folders containing photos stored by the Victim on this computer. Among these photos were photos of the Victim and photos of STONE, including a photo STONE had sent the Victim via e-mail.

12. On June 4, 2007, Crawford began a forensic analysis on a Dell Inspiron 6000 laptop Service Tag# 81LTN71, which had been turned over to the GPD by STONE with consent to search. Crawford completed the cursory search for the user account "Jason". The protected storage log revealed that STONE had used the Auto complete function of Microsoft Windows XP to store past search entries. A log of these entries shows active searches for "preteen", "young" and "14yo" material as well as pornographic search terms. Crawford completed a full recovery of deleted and lost files from clusters on the hard drive. This recovery found thousands of clustered file remains. Crawford copied a sample of these recovered files to an external hard drive and then completed a cursory review for inappropriate content. Found within these recovered files were many images suggesting internet browsing of teen and preteens by the defendant. These images contained minors engaged in sexual acts or posing in suggestive ways.

13. Based on the foregoing, there is probable cause to believe that JASON RICHARD STONE has committed violations of Title 18, United States Code, Section 2422(b), which prohibits a person from utilizing a facility or means of interstate or foreign commerce to persuade, induce or entice a minor to engage in any sexual activity for which any person can be charged with a crime, or to attempt to do so, and it is respectfully requested that the Court issue a criminal complaint against JASON RICHARD STONE.
